

# 360 NETWORKS

*Setting the New Standard*

**360 NETWORKS** would like to wish everyone a very Happy Thanksgiving!

Our offices will be closed November 28 & 29

## COMXCHANGE

ComXchange is a cloud-based and on-premise voice communication platform that bundles phones, voicemail and call accounting together in a unified communications system. It is setting the new standard for the hospitality industry and integrates with all major hotel property management systems (PMS). ComXchange is feature rich yet cost effective. It's reliable and dependable, too.

Myrtle Beach, South Carolina  
*More info to come later.*

*Useful tech tips and tricks you should know.*

**Tech**  
Tips

A technology resource

Something new in ComXchange 14 is the DHCP (Dynamic Host Control Protocol) Module in the Web GUI. The DHCP module allows an admin to change the phones systems DHCP scope for assigning IP addresses to devices connecting to the ComXchange Server as well as see the leases assigned.
