

360 NETWORKS

Setting the New Standard

360 NETWORKS unveils new cloud-based phone system, with many new features and upgrades, for the hospitality industry.

COMXCHANGE

ComXchange is a cloud-based and on-premise voice communication platform that bundles phones, voicemail and call accounting together in a unified communications system. It is setting the new standard for the hospitality industry and integrates with all major hotel property management systems (PMS). ComXchange is feature rich yet cost effective. It's reliable and dependable, too.

A technology resource

Something new in ComXchange 14 is the Services Module in the Web GUI. We are very excited for this addition as it provides an interface to start and stop the services that the ComXchange Phones System relies on in one convenient place.

Sales Bulletin

Lynn Blair recently joined 360 NETWORKS and has been selling voicemail and phone systems in the hospitality industry for 17 years. Lynn started her career processing black and white film and printing black and white photographs.

She was also part owner of a photography studio specializing in wedding and portrait photography. Once digital became more

popular, she decided to change directions and started re-selling Ameritech and AT&T services at McLeodUSA in 1999.

She joined Innovation Technologies in 2002; a hospitality centric voicemail company. Acquired by TigerTMS out of the UK in 2012 and then by Mitel in 2015, her years of hospitality background is solid.
