Setting the New Standard

Training via webinar on ComXchange

Did you know?

We have training available via webinar at no charge for ComXchange version 14.

This training is mandatory for all new resellers before you install a new ComXchange system.

For more information, send an email to info@360networksllc.com

911

Is your phone system compliant with Kari's Law E911 Requirements?

ComXchange is!

While phone systems installed before February 16, 2020 are grandfathered in, why take a risk?

If your hotel guest dials 911 and cannot reach the 911 center and something disastrous happens, your hotel's reputation will quickly dissolve.

For more detail, please email info@360networksllc.com

COMXCHANGE

ComXchange is a cloud-based and on-premise voice communication platform that bundles phones, voicemail and call accounting together in a unified communications system. It is setting the new standard for the hospitality industry and integrates with all major hotel property management systems (PMS). ComXchange is feature rich yet cost effective. It's reliable and dependable, too.

ComXchange Services

Something new in ComXchange 14 is the Services Module in the Web GUI. We are very excited for this addition as it provides an interface to start and stop the services that the ComXchange Phones System relies on in one convenient place. For more information, [click here](#).

360 NETWORKS is the developer of ComXchange, a leading open communication platform for the lodging industry. ComXchange provides an all-in-one IP PBX solution for hoteliers that integrates with all major hotel property management systems.
