

360 NETWORKS

Setting the New Standard

***360 NETWORKS would like to wish everyone a very
Happy Holiday Season!
Our offices will be closed December 24th, 25th,
31st and Jan. 1st.***

COMXCHANGE

ComXchange is a cloud-based and on-premise voice communication platform that bundles phones, voicemail and call accounting together in a unified communications system. It is setting the new standard for the hospitality industry and integrates with all major hotel property management systems (PMS). ComXchange is feature rich yet cost effective. It's reliable and dependable, too.
